

Springs Operating Policy No. 2 Visitor's Access Lane - Springs Logo Decal

All owners/residents of The Springs are required to display a valid Springs Logo entry Bird decal on their vehicle's windshield. These decals will be placed on the driver's side windshield in the lower left corner. Only Security personnel are authorized to apply entry decals. At the discretion of the SCA Board of Directors, decals may be revised/reissued to control unauthorized access.

Springs logo decals are requested at The SCA Business Office during regular business hours.

Only vehicles registered to owner/residents will be issued Springs logo decals. All decals are numbered and given an expiration date when issued to specific vehicles as listed on the resident information form.

Tenants are required to present a lease and signed amenity authorization form from the property owner to receive decals. The tenant's decal will expire upon expiration of the lease agreement. It is the responsibility of the property owner to retrieve their tenant's decals prior to the tenant vacating the property. Also, the property owner is responsible for the entry decals and actions resulting from its use at all times and notifying The Springs when the tenant's have vacated.

Decals remain property of The SCA and must be surrendered upon the sale of the property, sale of the vehicle, expiration of a tenant's lease, or at the request of the SCA or its agents.

Residents that are unable to place the entry decal on the windshield will be issued a guest pass, as per the procedures stated in Springs Operating Policy #4, that has the resident's name and an identification number supplied by the SCA Business Office and Security. These residents will be required to use the visitor's access gate, and to stop and identify themselves to the guard on duty.

Entry decals may not be utilized by anyone other than owner/residents properly registered at the SCA Business Office.
